

RESUME: RICARDO J. RAINERI BERNAIN

rraineri@ricardoraineri.com

Economist with a solid background and professional experience in a wide range of macro and micro economic and development issues. I have a superior academic and professional career in economics, with outstanding experience in public policy at the macro and micro level, government issues, international fora, business, and advisory services, and in deep industry expertise in key infrastructure and services sectors as energy and electric industries, telecommunications, transport and ports, among others, on questions related with markets, institutions and governance, industrial organization, business strategy, competition, antitrust and regulation, and financial issues.

Outstanding experience and practice in the public and private sectors, and on international organizations as: **Alternate Executive Director of the World Bank Group**, representing Argentina, Bolivia, Chile, Paraguay, Peru, and Uruguay; **Energy Minister of Chile**, leading the Ministry and responsible on energy policy in power sector, energy access, renewable energy, energy efficiency, and oil and gas sectors; **Economic Professor at Pontificia Universidad Católica de Chile**; **President 2017 of the International Association for Energy Economics (IAEE)**; **Member of the Editorial Board of The Energy Journal**; **Chairperson of the Board in the State Oil Company (ENAP)**, with operations in Chile, Argentina, Ecuador and Egypt, dealing with oil and gas exploration, production, refining and logistic, and imports and distribution of liquefied natural gas; **Member of the Chilean Council of Public Owned Companies**, a holding of **22 state companies** in a wide range of sectors of the economy; and **Board member in private companies on mining and energy sectors** as well as on **private trust funds**. **On public policy, development and business issues I have advised and assisted governments, and public and privately-owned companies, in LAC and other regions.**

Master and Ph.D. in economics from the University of Minnesota, and a **Bachelor in Economics, Business Engineer and Master in Economics degrees from Pontificia Universidad Católica de Chile**. Periodically publishes in leading journals and participate as a keynote speaker in conferences worldwide on economics, public policy, energy and other regional issues.
